

Dockside Service Unit

Incoming Connection

The Dockside Service Unit incorporates a hardwire connection - 630A 3 Pole 50kA MCCB with PR222DS/P LSI trip unit with external isolator handle.

Outgoing Connection

The Dockside Service Unit is complete with:

- 400A 3 Pole 36kA MCCB with PR222DS/P LSI trip unit. Wired to terminals.
- 250A 3 Pole 36kA MCCB with thermal/magnetic trip. Wired to terminals.
- 2 No. 160A 3 Pole 36kA MCCB with thermal/magnetic trip. Wired to terminals.
- 2 No. 32A 4 Pole 10kA C-Type MCB wired to a 32A 3P+N+E IP67 panel outlet.
- 2 No. 16A 2 Pole 10kA C-Type MCB wired to a 16A 1P+N+E IP67 panel outlet.

Enclosure

Manufactured from welded 10mm black polyethene to IP65. Two compartments (Incoming and outgoing sections) each complete with lockable hinged door and internal bolted and hinged shroud. Aluminium base gland entry gland plates for hardwire connections.

Common 1000A tinned HDHC copper busbar section (3P+N) with bolted canopy roof. Common fully rated tinned earth bar. Recessed section for protection of panel mount sockets. Complete assembly mounted within a 316 stainless steel crash frame with forklift pockets and facility to crane lift.

Specification

- Multifunction power meter, monitoring incoming supply.
- Red neon for each panel outlet.
- Standard safety labels to BS 7671
- Information labels
