

# IDE Systems and Rental Ltd

## Company Quality Policy

The Directors are committed to the effective implementation of a company Quality Management System, which will be fully compliant to **EN ISO 9001: 2015**. The organisation recognise that the implementation of this international standard will create a very effective method of ensuring that the needs of all interested parties are satisfied

The organisation will work in accordance within the relevant Statutory and Regulatory requirements relevant to the business and will ensure the requirements of the standard are met and adhered to, the company will work so that continual improvement of its processes and services to all interested parties is achieved where ever possible.

Details of the company scope of activity will also be available to interested parties to provide wider detail of the company activity base.

The company will work closely with all interested parties to ensure their views regarding the company's performance are taken into account thus further improving products and services. The company will promote risk based thinking in the development of its working processes, thus assessing the risk bias as negative neutral or positive.

The company will train all personnel to a suitably high standard to ensure they have the ability to carry out work in accordance with the requirements of its objectives. To aid continual improvement the organisation will set suitable measureable objectives, which will further improve effectiveness of its activities.

This Quality Policy statement will be communicated to all interested parties and will be displayed in a suitable prominent position on the company premises as evidence of our ongoing desire to meet and satisfy all interested parties, as well as working in accordance with an internationally approved Quality Management Standard.

A handwritten signature in blue ink, appearing to read 'Wayne Woodhead'. The signature is written in a cursive, flowing style.
